Bengaluru, Karnataka | +91 6362373560 | ddamrukesh@gmail.com

Education

BMS institute of technology and management

2022-2026

B.E honors in Computer science and engineering

Bengaluru, Karnataka , India

Relevant coursework: Data structures and algorithms , Database management systems , Computer networks , Operating systems , Machine learning , Data mining , Artificial intelligence , Cloud computing , Discrete mathematical structures , Digital transformation in industry.

Narayana institute

2020-2022

Senior secondary high school , CBSE

Bengaluru, Karnataka , India

Experience

Project Intern

May,2025–August,2025

IEEE,Bangalore society

Bengaluru, Karnataka , India

- Worked on a deep learning model for image captioning using CNN and LSTM architecture and fusing it with scene graph embeddings to improve context

Projects

ML-driven Wind and Demand Forecasting System for Optimizing Fossil Fuel Production

- Developed an ML-based framework to forecast short-term wind power generation and electricity demand, enabling dynamic fossil-fuel scheduling and minimizing unnecessary CO emissions. Built predictive models, an energy-balancing engine, and a dashboard to support smart-grid decision making.
- Implemented an additional optimization module to improve generation planning accuracy under fluctuating demand scenarios.

Price Tracker and Notifier for E-Commerce Sites

- Monitor product prices on sites like Amazon and Flipkart. Users could enter a product name through a Python script interface, and powered by Selenium would periodically check prices and send email alerts when a price drop was detected using SMTP module.

Skills

Programming Languages: Python, Java(basic), SQL

Version Control and Collaboration: Git, GitHub

Tools and libraries: Flask, Selenium , Scikit-learn, Pandas, NumPy, Matplotlib , Tensorflow

Awards & Honors

- Second Runner-Up in SAP Innothon 2025 conducted at BMSIT, Bangalore (August 2025). Developed a smart collaboration system prototype website for solving customer issues.

Certifications

- Machine Learning Specialization – Deeplearning.ai (Andrew Ng), 2025
